Performance Highlights:

Many of the goals within the Certified Shorthand Reporters Board's strategic plan have been achieved this year due to a continued operations review that began in April 2003. The Board has streamlined the fiscal accounting processes and has fully incorporated all approved systems offered by the State Controllers Office. The Board added an additional area within public awareness to help Board members provide information to the public in June 2005. With the use of the Certified Shorthand Reporters Board web-site and newsletter, this goal has also been achieved and the Board will continue to offer these services. Eight out of thirty-eight individuals took and passed the Idaho exam. Eight out of those taking the exam were students who may not have completed a court reporting program. Five students have passed portions of the Idaho exam, and two individuals have only one leg of the examination to complete. Eleven individuals purchased study material.
